**Volcanic Activity Summary:**

Earthquake activity near Tanaga Volcano has decreased in both rate and magnitude from the peak of the swarm on March 9 – 11. The significant decline in earthquake activity decreases the potential for an eruption at the volcano. No other signs of unrest have been detected in other monitoring data. AVO is therefore lowering the Aviation Color Code to Yellow and the Volcano Alert Level to ADVISORY.

### How to CREATE & SHARE a Photo Library (iPhone)

#### Create a Shared Library

To set up a Shared Library, you need a device with iOS 16.1, iPadOS 16.1, or macOS Ventura or later with [iCloud Photos](#) turned on. If you're under 13, you can only join or create a Shared Library with members of your [Family Sharing group](#).\*

#### On your iPhone or iPad

1. Go to Settings > Photos, then tap Shared Library.
2. Choose up to five people to invite, or you can invite participants later.
3. Choose past photos and videos that you want to move to your Shared Library, or choose to move photos later.
4. Follow the onscreen steps to preview your Shared Library, confirm the content that you want to share, and invite additional participants.

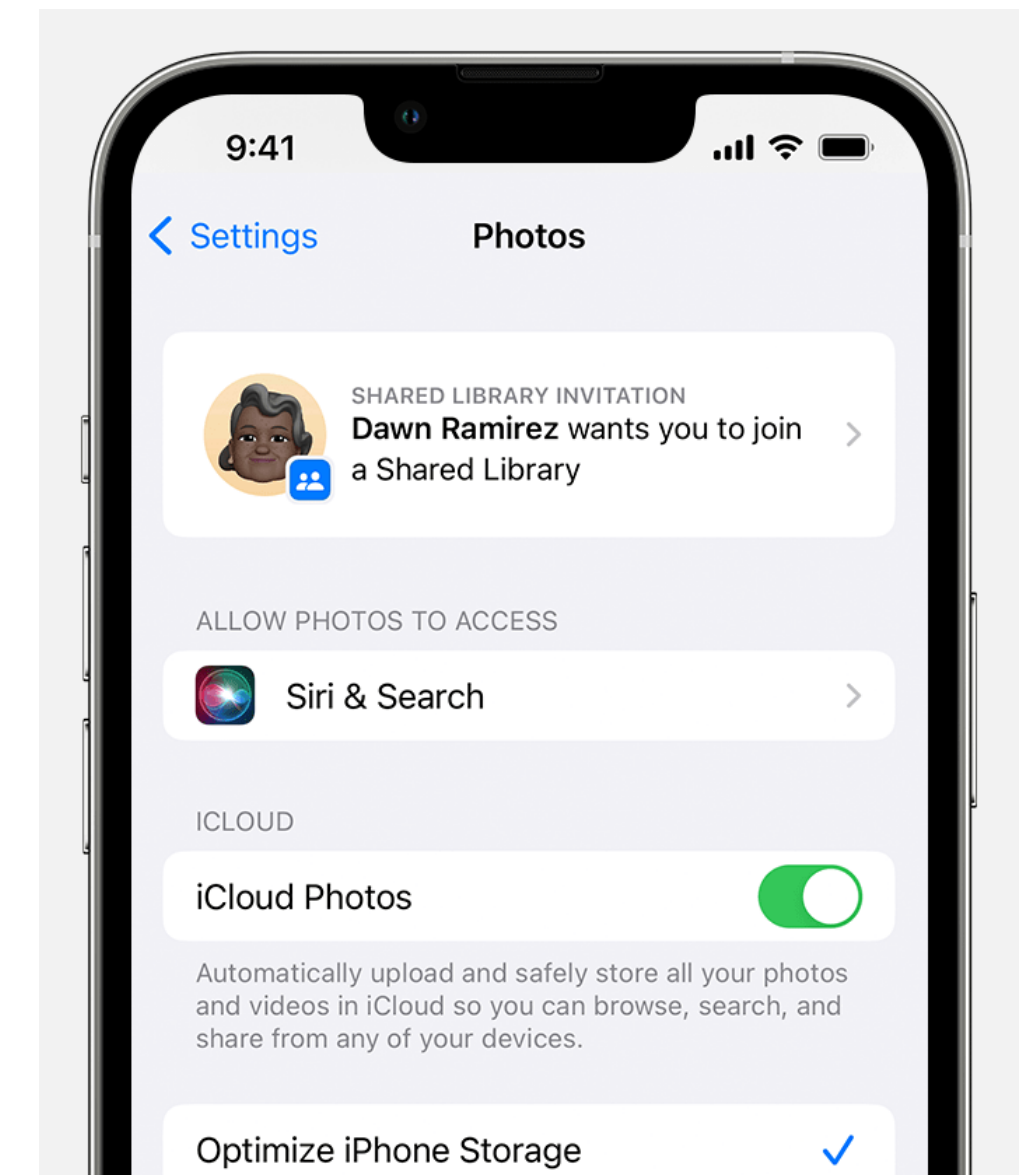

*\*but beware if you have older computers or devices...*

# Shareables

## 4. Photos App

### How to JOIN another's Photo Library

1. Open the invitation from the library creator or go to Settings > Photos.
2. Tap Accept & Continue.
3. Follow the onscreen steps to choose photos and videos you want to move to your Shared Library, or choose to move photos later.
4. Follow the onscreen steps to preview your Shared Library content and confirm the content that you want to share.

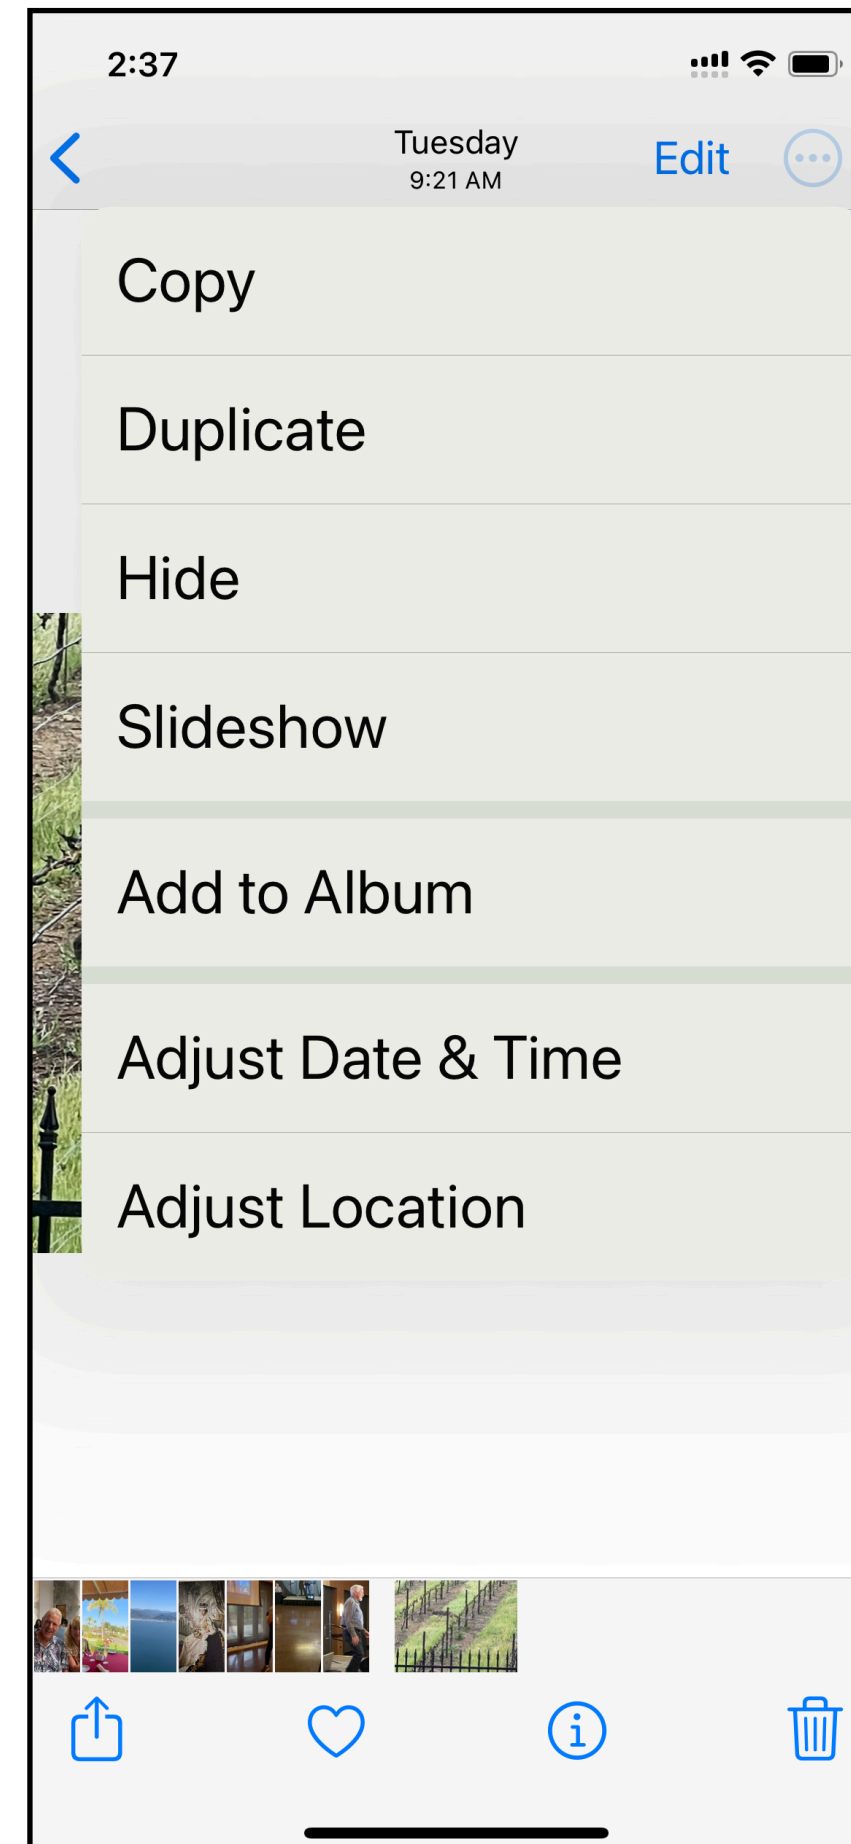

*...then whatever's been shared with you will appear in "shared".*
